ABOUT ME

I started by moving furniture around on a screen. Now I move buttons around on one. After four years of interior design, I moved into digital products and have worked as a UI/UX designer for over a year: first as the entire design department at Varuna Marine Services, now at Centralogic, while completing my Master's in UX at Symbiosis Institute of Design. I design websites, dashboards, CRM interfaces and mobile apps, from research to developer handoff, and I use Claude Code and Antigravity to build and ship my own work. Changing the medium did not change the obsession: I still care about how people move through a space.

WORK EXPERIENCE

TRAINEE UI/UX DESIGNER — JAN 2026 – JUL 2026

CENTRALOGIC — PUNE, INDIA

- Took sole responsibility for designing the mobile CRM app for the Huhoka CRM dashboard, keeping the design in step with current market trends while following the brand guidelines.
- Created a complete design system for Huhoka, including a dark mode version.
- Led end-to-end UI/UX design for the Centralogic website landing page and FAQs section.
- Created graphic design assets including slide decks, brochures, email templates, quotations, and brand documentation.

INTERN UI/UX DESIGNER — MAR 2025 – SEPT 2025

CYBERWAVES (VARUNA MARINE SERVICES) — REMOTE, INDIA

- Sole designer, owning the full process from user research to developer handover.
- Redesigned the service-based dashboard, upgrading its visual design and experience.
- Designed the Smart Inspection mobile app.
- Worked with developers and iterated on designs during development.
- Conducted market research, defined user flows, and collaborated with developers in an agile workflow for smooth handoff.

EDUCATION

MASTER OF DESIGN (USER EXPERIENCE DESIGN) — HYBRID

Symbiosis Institute of Design, Pune — 2025 – PRESENT

BACHELOR OF DESIGN — INTERIOR DESIGN (B.DES)

Maharaja Agrasen Himalayan Garhwal University Panache, INSD Institute, Mumbai — 2019 – 2023
